Software Pricing

Software Pricing is per Computer Network "User". The optional software modules (eg, Job Cost Estimating) require the Base InterAcct as well, and are purchased based on the number of base Network Users. Prices are all ex GST.

+ Annual Support Pricing

Yearly support is calculated at 20% of purchase price, with no CPI annual increases. Support is reduced by 30% after 3 years. For example a single User (with just the base InterAcct) this would be ($1,500 x 20%) = $300

+ Implementation & Training Budget

Please refer to Pricing for recommended min/max hours of Implementation & Training required per installation / module (not per User).

Implementation / Training "Advanced Rate" is currently charged at the average rate of $160 per hour with prompt payment incentives available.

+ Modules

There is a wide variety of software modules available for purchase, talk to InterAcct staff about your specific software needs. Or refer to the InterAcct Pricing document for current prices.
