

InterAcct Remote Solutions

After nearly a year in software development, InterAcct has announced the release of their new IRS (InterAcct Remote Solutions) package.

The IRS module relates to InterAcct's Job Costing system where job information needs to be transferred from/to a Host (Head Office) computer to remote "devices" – such as Apple's iPad, and Samsung's Android Tablet.

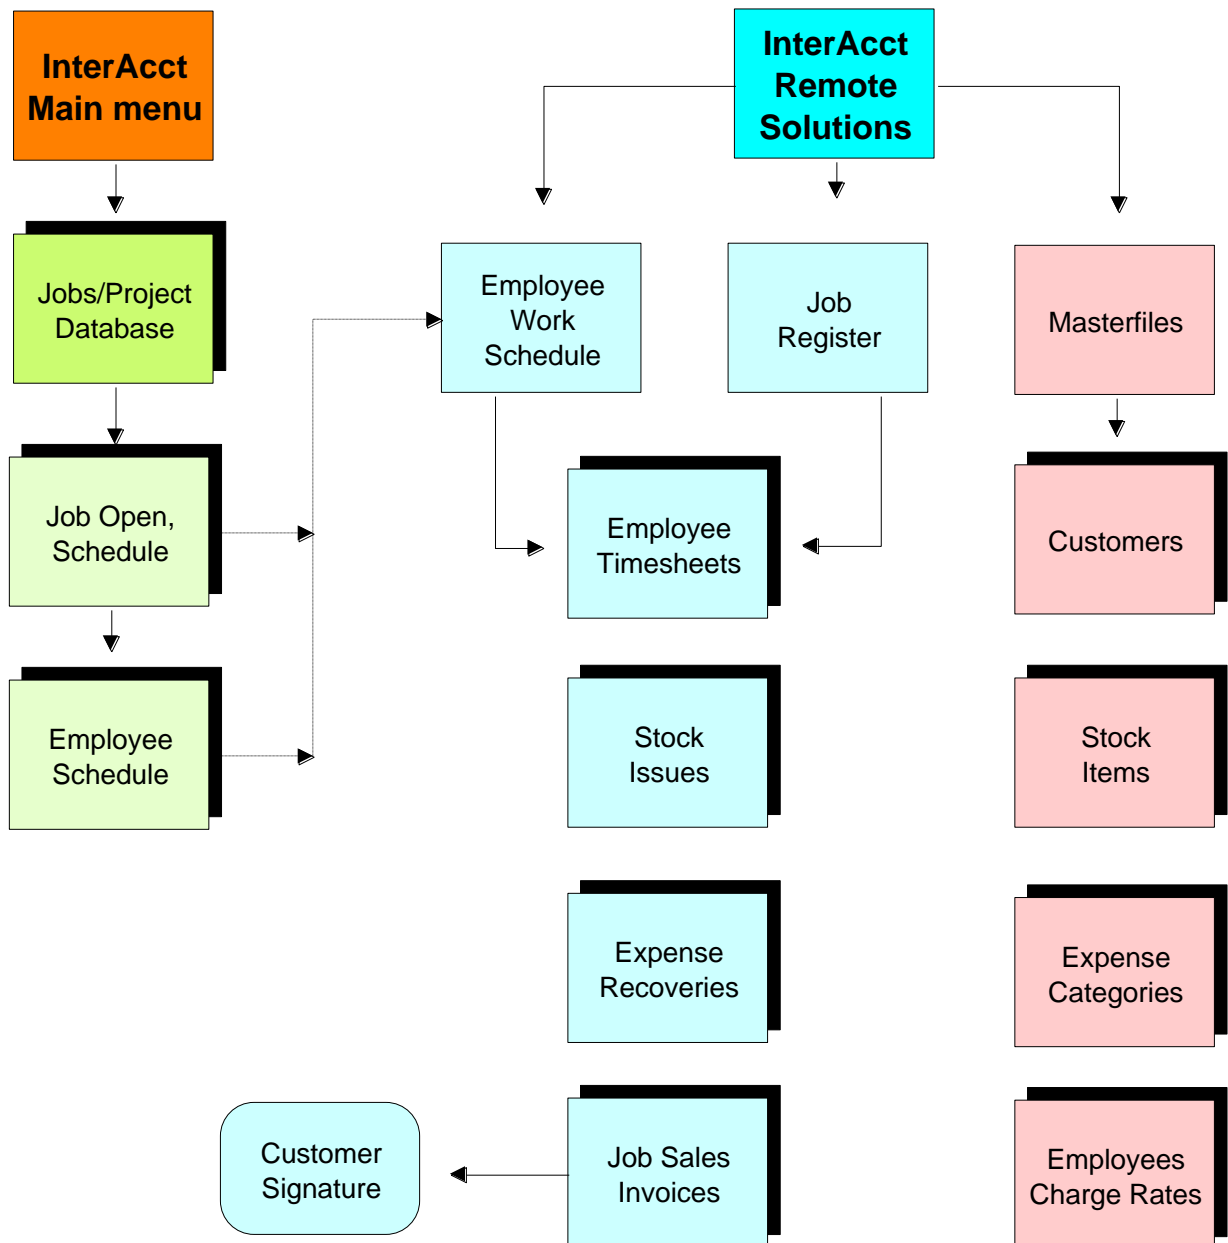

The application might be used by service people in the field –

Receiving Information :	Sending back information :
<i>New Jobs</i>	<i>Time Sheets</i>
<i>New spare part stock issues</i>	<i>Stock Issues</i>
<i>Employee Work Schedules</i>	<i>Expense Recoveries</i>
<i>Customer Database</i>	<i>Do & Charge Sales Invoices</i>
<i>Stock Database</i>	<i>Customer Signature image file</i>

Even in situations where the off-site employee is outside the Internet range, data is automatically transferred when back On-Line (just like phone messages).

Flow Chart

Main Menu – Tablet

Job Open – Schedule Employees :

Once you have created your –

- Customer File
- Job/Project Details

And you may have then created –

- Job Cost Estimate(s)
- Job Quotation(s)

Then (hopefully) you win the job – and schedule a start date, etc.

You can also schedule what employees should work on that job, by date and time, and what tasks they will perform.

At that point, the IRS will be sent that information automatically to the Tablet (once the “Refresh” button is pressed on it).

Customer – Job Details – Employee Work Schedule

The screenshot displays the InterAcct IRS software interface. The main window is titled "InterAcct IRS - [SCHEDULE JOB - display , Install Air Conditioning Unit, REPAIR, Unit 10, 3 Harris]". It features a menu bar (File, Record, Edit, View, Go, Advanced, Menu, Graph, Design, Help) and a toolbar with various icons. The main area is divided into several sections:

- Job Details:** Includes fields for Status (4.WIP), Basis (DO-CHARGE), Employee Name (Brett MacKenzie), Date Won (18-Dec-2012), Contract #, Quote No, Priority (2.NORMAL), Job Type (REPAIR), Branch (HQ), Region (N.SYD.EAST), S/Person (JEFF.W), Class (TRADES), Start Time (8:00 AM), End Time (5:00 PM), Estimate \$ (1,000), Charge \$ (100.00), and Bud Profit \$ (0).
- Work Details:** Includes fields for Work (Install Air-Conditioning Unit), Address (Unit 10, 3 Harris Street), Site, Suburb (ULTIMO), Site Ph, Job Name (Install Air Conditioning Unit), and Comments (Get Payment on Arrival - Bank Cheque Or Cash).
- Menu:** A list of tasks including 1. Employee's Work Tasks, 2. View : Job Diary, 3. Jobs by Sub Contractor, 4. Job Accounting, 5. Job Safety Analysis, 6. Job Reports Menu, 7. Site Survey, OH&S, 8. Job Comments, 9. Job Checklist, 10. Job Financials, 11. Contract Details, and 12. Job Documents.
- Employee Work Schedules:** A section with icons for Estimating, Quote, Budget, Invoice, Diary, Processes, Schedule, and Employees.

Below the main window, there is a smaller window titled "EMPLOYEE WORK SCHEDULE list , Install Air Conditioning Unit, REPAIR, Unit 10, 3 Harris". It contains a table with the following data:

	Employee	Schedule Date	Start Time	Finish Time	Est Time	Act Hrs #	Estimate \$	Work Details
1	BRETT.M	Mon 17-Dec-2012	8:00 AM	5:00 PM	9:00:00	0.000	900.00	Install Air-Conditioning Unit
2	BRETT.M	Wed 19-Dec-2012	8:00 AM	5:00 PM	9:00:00	0.000	900.00	Install Air-Conditioning Unit
					18:00:00	0.000	1,800.00

Transaction Update :

Transactions that have been remotely entered on a Tablet are automatically transferred back into the (host) InterAcct system.

All that is needed (once a day ?) is to run an automatic update process on these transactions in order that all the related files (transactions, ledgers) may be updated.
